

Plant-Food Production and Technology

Certificate of Competence

2020-21

(9 credits)

SAMPLE

The certificate in Plant-Food Production and Technology is a program to attract a new generation of skilled agricultural-food technicians and broaden/enhance the skills and knowledge of existing agricultural biotech employees and incumbent workers in other related fields. Graduates will gain knowledge in propagating, planting, and understanding the uses of plants/ orchids, as well as skills in tissue culture and food sciences.

This is an example of an educational plan that can serve as a guideline to create your own academic pathway.
